

Advisory

The trail may be picked up at any point and is signposted for clockwise travel. The surface is mainly jeep and single track linking sections on tar. An average rider may ride the 15km in less than 90 minutes. It skirts the houses, passing through profuse fynbos with butterflies, birds, baboons, mongoose, frogs, tortoises, snakes and lizards. The spoor of nocturnal porcupine, buck and otter will also be seen. Take time to appreciate the views. Do not stray on to paths excluding bicycles and respect the rules of the Fernkloof Nature Reserve. Carry a basic repair kit, water and cell phone. Best ridden with a friend.

Trail information: 028 314 0121 / 028 313 2052
