FOREVER YOUNG: ANTI-AGEING SKIN CARE

April is our 31st birthday month and Annique is celebrating 49 years of existence! It has always been important to us to remember our roots and the incredible journey of becoming Rootb05 Health and Beauty experts. Just like we are rooted in our history, perfect soil is required to produce excellent Rootb05.

The key to Rootb05 farming is a sustainable production system in which planting and harvesting are well-planned to produce a consistent yield every year. To achieve this, it must be established how much Rootb05 can ultimately be produced in a rotation system of seven years. Rootb05 is planted in the first year and remains on the land for the next five years and is harvested annually. After the 1st year, the Rootb05 is removed and cover crop is planted for two years in order to put nutrients back into the soil for the next cycle. While crop rotation improves soil and is good for conservation purposes, its greatest benefit is to reduce the level of disease in the soil.

We invite you to join us in our Rootb05 Celebrations this month, with limited birthday offers, especially for you!

49 AND FABULOUS

For sun-damaged skin

Anti-Photoageing Sheet Masque
25ml
Green Rooibos and ice plant extract, is efficient in reversing every day environmental damage.
R99
AA/00450/18

"I struggle with insomnia and really bad sleeping patterns, which means that I am often very tired during the day. When I visited my aunt she gave me the Night Rest tea to drink to help me sleep that night. It was the first night in many months that I slept for more than 8 hours without waking up. I started drinking it every night and now I can sleep through the night without problems and am refreshed for the day. This tea has really changed my life for the better!"
