

**Agreement:**

I, \_\_\_\_\_ (Your name) hereby certify that I agree to the following:

1. If a Yorkie becomes ill, he or she will be taken to Doornpoort Animal Clinic, or to the vet specified by you. If it is outside a 3km radius a fuel charge of R8.00 per km will be charged.
2. Although we take exceptional care of your Yorkie, we accept no liability for accidents of any kind.
3. Please inform us of special dietary/medication needs, and supply the food or medication required and Vet details.
4. **NB:** Please ensure all inoculations, inclusive of Kennel cough, and deworming are up to date. You need to bring your Yorkie's vet card with to confirm.
5. Please inform us if your Yorkie is pregnant - she will receive extra special care. Should she deliver during her stay, R35.00 per pup per day will be charged. Should she experience difficulty during the birthing process and needs the assistance of a vet, the account will be your responsibility.
6. In case of bite wounds you will be held liable for any and all vet and medical costs.
7. Please notify us if your Yorkie has not socialized with other dogs. I suggest you bring your Yorkie to come and stay with us for a few days before December. I will not take a booking for a Yorkie that has not socialized with other dogs during the December holiday period. It makes it very difficult and extremely dangerous to have a fighting dog with all the others during peak season.
8. If you are not going to breed with your Yorkie(s), please sterilize them. **I will not accommodate any Yorkie during December that has not been sterilized. NO FEMALE ON HEAT WILL BE ACCOMMODATED DURING THE YEAR.**
9. Please arrange a collection time with me in advance, as I need to know for bathing purposes. We do not accept Yorkies later than five o'clock, as it takes a while for them to settle before bedtime.  
HOURS: 08:00-17:00 during the week. Weekends: 08:00-17:00.

**No Yorkies with Ringworm, Kennel Cough or Parvo will be received!**

**YO-DEO WILL NOT ACCOMMODATE ANY YORKIE DURING DECEMBER WHICH HAS NOT BEEN SPAYED. Vet cards must be handed in, and Yorkies have to get a kennel cough vaccine once a year.**

We ensure you that your Yorkies will be happy with us and they will receive the best treatment.
