

Prestige Panelbeaters, Rustenburg

As the name suggests, Prestige Panelbeaters should find itself somewhere on the collision repair industry's 'Platinum Mile'.

And it does - not only because of its location in Rustenburg, but also because it ranks as one of the country's very top bodyshops.

Prestige Panelbeaters is over 40 years old, but is brand spanking new! As owner, Reg Wagner, explains: "We purchased a piece of land in Rustenburg and built an entirely new bodyshop. Nothing at all from our previous shop has been moved to the new one. Every single item is brand new."

It certainly shows. Beautiful facilities, superb design and functionality, and the very latest in bodyshop equipment have elevated Prestige Panelbeaters to the upper echelons of the industry.

Already the company has obtained General Motors South Africa approval, with a host of others in the pipelines.

Taking everything into account, it's very clear that Prestige Panelbeaters is not just a diamond in the rough, it is a diamond set in platinum!
