REDAKTEURS
NOTA

Liewe maats,

Die skool het gesluit en ek kan net dink hoe opgewonde julle is. Dink net aan al die lekker goed wat julle die vakansie gaan doen.

Tommy ons chef - bak en brou nog steeds, hoop julle het al van sy resepte gemaak? In die uitgawe maak hy 'n gesonde slaai.

Probeer dit julle sal dit geniet!

Hier is lekker lees stof vir julle in die uitgawe. Dyne ons Ambassadeur het 'n baie interessante storie oor Dinosauruse gedoen.

Vra ma of pa om die tydskrif vir jou af te laai by www.topvibe.co.za of gaan na ons Facebook blad.

Facebook: <https://www.facebook.com/vibekids.britz>

Pas julle mooi op tot volgende maand. Liefde

Charms

Top Vibe Kids Mag 3

Dear friends

I trust that you are well and looking forward to this month's issue of the magazine?

It's world Teacher's day on 5th October.

Teachers are very important and often don't get the recognition that they deserve. Teachers are the pillar of strength and the guiding force in a students life.

Teachers pass on value to children, prepare them for further education and are the main contributor to education in our society.

I would like to thank all the teachers that have taught me over the years and have given me the passion to one day become a teacher.

If you are reading this, thank you teacher.

Love

Tanita

Good day all my friends

Holiday is around the corner exams are almost finished and at least we can rest be bit before the 4th term is starting, well most of us... I will be starting my AG Swim Stars Trails and Sasol Winter Champs the whole holiday but it's okay it is my passion and I had the privilege of meeting another Olympian Swimmer on Backstroke.

I would like to share some interesting facts on Dinosaurs. Hope you enjoy it. Here I go and try to play along before you see the answer, go to page 14 and 15.

Till next month
Take care

Dyne

Liewe vriende,

Sjoe kan jy glo die jaar is amper verby ons staan op die vooraand van 'n skoolvakansie en dan die laaste kwartaal van 2022.

Dan is dit die laaste skooldae, met Kersfees om die draai en siedaar die einde van 2022.

Ek is veral opgewonde oor die lang Desember vakansie wat voor lê, dit was 'n besige jaar.

Maats julle moet hard leer vir die laaste eksamen en weet julle is nie alleen nie. Ek groet nou eers tot volgende maand

Liefde

Meagan

Fun facts about sun

Did you know?

Fun Facts about the Sun for Kids

The Sun is over 4.5 billion years old. ...

The temperature of the Sun is around 10,000 degrees Fahrenheit. ...

Some areas on the Sun's surface are cooler than others. ...

Sometimes gases on the Sun's surface erupt, shooting far out into space. ...

The Sun's light reaches the Earth in eight minutes.

What are 5 facts about the Sun for kids?

Image result for fun facts about the sun for kids

Interesting Facts About the Sun

Our sun, the center of our 8 planet solar system, is a star.

The sun provides a majority of the heat for the planets (some planets produce internal heat).

The future looks bright. ...

Our sun is an average size sun.

The mass of our sun makes up almost all of the mass in our solar system

What are 5 interesting facts about the Sun?

Image result for fun facts about the sun for kids

Fun Facts About the Sun

The Sun accounts for 99.86% of the mass in the solar system. ...

Over one million Earths could fit inside the Sun. ...

One day the Sun will consume the Earth. ...

The energy created by the Sun's core is nuclear fusion. ...

The Sun is almost a perfect sphere.

What are 3 fun facts about the Sun?

Image result for fun facts about the sun for kids

Fun Facts

If the Sun disappeared, we would only notice its absence after eight-minutes, since it takes eight minutes for sunlight to reach us.

The Sun's visible surface sometimes has dark sunspots. ...

The Sun is actually white. ...

The energy created by the Sun's core is nuclear fusion.

The Sun is almost a perfect sphere.

Why is the sun so important for kids?

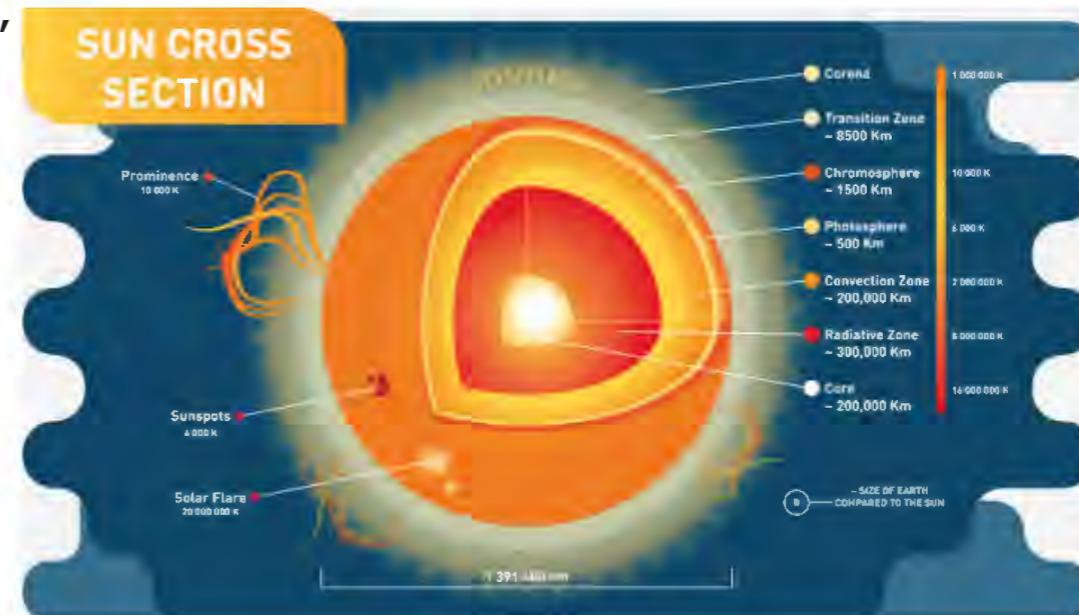

Sunlight helps children produce adequate levels of vitamin D, and vitamin D sufficiency protects kids from a variety of undesirable health outcomes.

The sun was born about 4.6 billion years ago. Many scientists think the sun and the rest of the solar system formed from a giant, rotating cloud of gas and dust known as the solar nebula. As the nebula collapsed because of its gravity, it spun faster and flattened into a disk

Will sun burn out?

Image result

Astronomers estimate that the sun has about 7 billion to 8 billion years left before it sputters out and dies. One way or another, humanity may well be long gone by then

Chef Tommy

GESONDE SLAAI:

1/2 slaai kop
15/20 klein tamatie (heel of halfeer)
1 x wiel Vetta kaas
1/2 komkommer dun gesny
knippie sout en pepper na smaak.

Meng als saam in 'n mooi glas bak.

Vra mamma vir bietjie slaai sous en gooi 'n bietjie oor jou slaai.

Geniet jou somer slaai

Kom bak en brou saam met my!

Facts about Giraffes

Giraffes are the tallest mammal in the world. They can grow up to 5.5 meters! ...

Giraffes can stand half an hour after being born. Yep! ...

Giraffes stand up pretty much all the time. ...

They live for about 25 years. In the wild the giraffe usually lives up to around 25 years.

1 There are different giraffe species. ...

2 Their patches tell them apart. ...

3 They're officially the tallest animal. ...

4 Long giraffe necks are excellent lookouts. ...

5 Giraffes are greedy-guzzlers. ...

6 They don't drink much. ...

7 A giraffe uses its head for fighting. ...

8 They're fast and dangerous.

The average giraffe sleeps for 4.6 hours per day. For the most part, giraffes tend to sleep during the night, although they do get in some quick naps throughout the day. Giraffes can sleep standing up as well as lying down, and their sleep cycles are quite short, lasting 35 minutes or shorter.

Giraffes are the tallest mammals on Earth. They can run as fast as 35 miles an hour over short distances, or cruise at 10 mph over longer distances. A giraffe's neck is too short to reach the ground. Giraffes only need to drink once every few days

Do giraffes have teeth?

Some think that they are elongated canine teeth, but they're actually extra long incisors. 3 – Giraffes and humans have the same amount of teeth – 32. However, giraffes have no upper front teeth, and most of their teeth are actually molars in the back of their mouths.

Giraffes have hearts that are 2 feet long. A male giraffe is called a Bull, baby giraffes are called Calves and females are called Cows. Giraffes sleep only five to 30 minutes every day. Usually they stand up to sleep. They only lie down if another giraffe can stand watch. Giraffes can run up to 35 miles per hour.

These tall animals need a lot of food to keep them going. They eat up to 75 pounds of leaves every day. They love the leaves from acacia trees. These trees have long thorns but giraffes can eat around the thorns.

Dinosaurs & Friends

By: Dyne Mulder

Who am I?

My name means "Three-horned face". I am 7-8 meters long and 3 meters tall. I'm a herbivorous that means I eat plants and leave. I hatched in a small egg the size of a melon!

That's right I am a Triceratops

Who am I?

My trunk is very long, my ears are small compared to my body and my tail is short so that I keep my body weight. I am 5 meters long and 6 meters tall. I love the cold and eat plants.

That's right I am a Mammoth

Who am I?

I am 13 meters long and 5 meter tall. I have a scaly skin and I am a carnivorous meaning I hunt other animals meat eater.

this once is tricky one.

That's right the famous T-Rex (This is my favourite Dinosaur).

Did you know that the only animal the T-Rex is afraid of is the Ankylosaurus... Even it is half size the tail of the Ankylosaurus is very powerful.

Giant Sloth

Well, this is an interesting animal and if you have seen Zootropolis on TV you would know the animals is very slow but so funny They eat a bit of everything from plants, seeds, and meat.

Volcano

Did you know Volcano is a mountain that has a big hole in it. Volcano can be very dangerous to our plants, humas and animals. Mush smokes fills the sky and covers the sun and then the temperature drops, and it causes it to explode.

Cave men and art

Caves are not made by humans but are formed by nature. They are very cold in the winter but very strong. Pictures were drawn on their caves with burnt wood. Even I didn't know that.

Ice Age

Just like the move Ice Age hopefully you all have seen it, did we experience it as well, well not be but very long time ago. Between the ice ages in some parts of the world, the frozen water has never melted. Dinosaurs like warm weather but will adapt if the weather change.

Did you know there were over 700 species of Dinosaurs back in the day.

I hope you enjoyed this issue on Dinosaurs as this is very special and interesting to me, I have a whole collection on Dinosaurs and Friends.

Until next month

ALLES OOR SLANGE DEEL 3

Daar is duisende slangspesies op aarde en hulle is interessant van die punte van hul tong tot hul sterte. Leer en lees saam

Laaste deel van slange.

VAN DIE GIFTIGSTE SLANG FAMILIE:

ELAPIDAE:

Dit is slange soos die koning kobra, swartmamba en rinkals. Wie se breedte van hulle koppe en nekke ewe wyd is.

Hulle tande is gegroef, kort en bedek met mukusmembraan.

Hulle kan daarom nie deur klere byt nie.

Hulle dosis van gif is gewoonlik dodelik.

VIPERIDAE:

Hulle het gewoonlik 'n driehoekige kop wat wyer is as die nek.

Hulle tande is lank, beweegbaar en het 'n holte in.

Voorbeeld is adders en ratelslange.

SLANGBYTE:

Omtrent 4 000 tot 5 000 mense word elke jaar in Suid Afrika deur slange gepik. Omtrent 1 000 van die mense word in die hospitaal opgeneem. Slang byt nie net nie hulle kan gif in jou oë spoeg. Dit kan die dood of psigologiese probleme veroorsaak en ernstige en permanente skade aan jou weefsels en senuwees doen.

HULP VIR SLANGBYTE:

Faktore wat 'n invloed het op hoe erg die effek van 'n slangbyt is, sluit in die grootte van die slagoffer, komorbiditeite, watter liggaamsdeel gebyt is, Sommige slangbyte het geen simptome nie, ander veroorsaak koors, pyn, swelling, duisligheid en asemhalingsprobleme.

Soek onmiddelik mediese hulp. Pasiënt moet nie beweeg nie.

Haal juwele af trek skoene uit. As jy 'n beskrywing kan gee van die slang of die dooie slang sal dit baie help met die behandeling van die pasiënt.

Cover page Model - Mia Meintjies (6)

Mia Meintjies is a little girl she is outgoing with a lovely heart and beautiful smile.

Only child she love her pets she is the proud owner of 2 dogs, fishes and birds.

Mia is a very happy little girl who manages to charm everyone that she meets.
sunny personality.

Although Mia is just 6 years of age her life goals are BIG.

Her goal in life is to be one of those people who are just light.
You see her and you suddenly feel so warm inside and all you want to do is hug her and you look at her smile she has the warmest light in her eyes.

Mia said she love to play netbal, swim and do maths.

When asked what inspires you? she smiled and replied my mother.

We asked her why and she said
All I am or hope to be, I owe to my Mother.

So little but so wise.

She is a beautiful little girl with a golden smile.

Remember her name because you going to read about her....
