Dear readers.

You are good enough! If you were looking for a sign to start the journey you have been setting aside because you are scared of what people might think and their judgement, this is that sign. Have you ever wondered how far you could have been if you started when you said you wanted to. Now is the time to pick your head up and do it. As you have already noticed, time flies by - we are in March! You are strong enough, brave enough, smart enough and good enough. I hope next time we meet here you can look back at the past month and see how much you have grown!

Much Love till next month

If your year hasn't started off well, are you wishing it away like I did a few days ago or just keeping pushing on as you did...

In the last few months, I've been getting the feeling that I'm going to launch something so BIG that I'll have a hard time believing in my ability to do it.

Putting the question to you: Where are you? Despite all these plans for the New Year, have you taken the time to run them past your one and only Creator, who knows you best, and who has plans for you of goodness, not evil?

Well, sometimes we just take everything automatically, take a step back, and review how did you start the year with autopilot or did you start the Plan God has for you did you invite Him to be part of your life...

I must be honest in saying that I did not.t is because I'm scared that I haven't bowed down in prayer and become still so that I can hear Him clearly and now I feel the need to wish the year away...

Getting down, dirty to the point we always try to make our own plans and always when they don't succeed "Then it's the devils fault" Right? Yes... it's not his fault if we did not consult God, it was our choice

So, how do we fix this... instead of wishing away the year to next year and just doing this year like every other year...

WHERE ARE YOU!!!

By Lelanie van Niekerk

We are now in March of 2023, and I am pretty sure everyone was excited for this to be the year?

Right!

This is already the third month of 2023, and I already wish it away.

The year has had a rough start...for some South Africans, not what was expected at all. For others, it is a low blow already, and it's only the third month.

Obviously, I'm not trying to discourage anyone who reads this, but what I'm trying to say is, WHERE ARE YOU!!!

How do we reset 2023?

Getting quiet, prayer and worshiping

Letting God in and unfold His magnificent plan to you willingly to listen and to do...

There is no recipe for this, it takes you to choose it's the only way less of you and more of Him.... I have spoken to many people and everyone has a right to his or her opinion but in the end its all about Him and His love for all of us.

Starting the year NEW is to know certain things so that you know who and what you are dealing with that 99% of the time creates these negative feels... Yes you guessed it I'm referring to the one and only devil...

If you don't know by now how he operates, I what to share a little inside scope of my life....

So, you see I were once a person that was very afraid of a lot of things but one fear that stood out above all was the fear of something to happen to my children which I think most of us have experience this fear at some stage,

My fear was stretch out to the brim of no return it was consuming me the fear got to a stage where it was not just my children but the whole of something bad to happen even driving with someone being in a state of panic...

The devil uses these weakness we have and turn a 380 on you, after my ICU sleep I was struck by fear unimaginable to afraid to leaf my own house at nigh it was the worse for me...

I guess the whole idee was for me to identify this learn from it and to understand that this feeling, emotion was not coming from God... this was concurred by understanding the love God has for me and that He made promises He always keep.

struck by fear unimaginable to afraid to leaf my own house at nigh it was the worse for me...

I guess the whole idee was for me to identify this learn from it and to understand that this feeling, emotion was not coming from God... this was concurred by understanding the love God has for me and that He made promises He always keep.

Look sometimes the devil still tries to bring back those feelings and sometimes he succeeds merely because of my own weakness.

Resting 2023 is that you need to get to a place to be quiet and listen even if this takes you the rest of 2023 to hear...

This year starting with floods, the Boksburg explosion more floods the earthquake in Turky and Syria, so its not just at our doorstep but it's global...

We all want a new fresh start in life, but not willing to offer up our own time, not willing to go the extra mile and I will tell you the reason it's because it's much easier to take and to ask... it's too easy... the quick fix generation!!

I honestly still believe that this year and the coming years is thee HEARVEST years, but we will have to change we will not be able to receive this greatness from God if we keep on doing as we are doing...

One thing that I have learned from God is that He loves us more than anything, understanding His love for us must be the first goal understanding His love changes everything, the way you treat others it really changes everything...

Its like following a recipe you can not get the perfect cake with no baking powder, and people are trying to life by certain things like example "Ask in my name and you shall receive" and people get angry when they don't receive...

But everything comes back to this one conclusion, we are falling because of not knowing not trying hard enough not enough love...

I will say this is not any easy road to walk but it's worth everything... I don't do this often but I have the feeling that I need to if there is anyone that read this and need prayer, help or just even someone to talk to you are more than welcome to send a message to lelani37.lvn@gmail.com

So again, WHERE ARE YOU NOW?

29 January 2023, way before sunrise, over marshals from various charity organisations (from Rotary Clubs of /Henley-on-Klip, Meyerton Germiston, Johannesburg 101, Roodepoort and Vanderbijlpark Club, Inner Circle, Round Table Vereeniging, Lions Club of Henley on Klip, Round Table Vereeniging, Henley at Heart), came together to assist in marshalling for the Midvaal Fast One Cycle Challenge. At 2 o'clock that morning the last potholes were filled ensuring a safe race. The whole force of Midvaal Traffic Department was deployed as from 2h00 that morning, including Road Rangers and Ambulance services of Hamnet Amateur Radio Emergency Communications. This year over 1800 cyclists entered the Midvaal Fast One Cycle Challenge, from across the country, and across the continent from Botswana and Swaziland and even a cyclist from as far afield as France.

The top male winners were Franco Ferreira followed by Martin van Wyk in Second and

Drikus van der Walt taking third. The top three Ladies were Tanit Kruger followed by Erika Potgieter followed by Mamello Letsie in Third. 103km new route had to be set out due to the severity of the road surface along the previous 97km route. The race was stopped for a short while on the 103km route from that point due to thunder, lightning and severe wind which could have been a potential risk to the field of cyclists still out on the road.

What leads up to an event like this is hard team work and can only be compared to many hands make light work, to pull this day together, everyone needed to come together, meetings and organisation skills

Midvaal Fast One Cycle Challenge's main sponsor was the Midvaal Local Municipality who assisted tremendously in the task of road surfaces and assisting with planning and marketing the day.

This project run by the Rotary Club of Riverside, is now in its 26th year and is their largest fundraiser which contributes to so

many worthwhile projects that the club does throughout the year. Projects that are assisted by funds raised from the Midvaal Fast One Cycle Challenge are: The Mapheo Project (early childhood development for 27 Schools, this includes teacher training and vegetable garden farming assisting with nutrition),

Knitting Angels at Pioneer house assisting them with wool. Bophelong water and sanitation and a Rotary Ann's Charity Store situated in Three Rivers.
