REDAKTEURS
NOTA

Liewe maats,

Ons eerste liefdadigheids projek is verby en dit was 'n groot sukses, ons het dit baie geniet om by die bejaardes te kuier. Sien die fotos op bladsy 10 en 11.

Ondersteen asseblief ons ambassadeurs met die projekte waarmee ons besig is.

Ons begin al kos insamel vir Vaalpets sodat die honde se magies vol kos is in die winter. Ons is ook opsoek na komberse, handoeke enige iets wat ons kan gebruik.

Vra jou maats by die skool om te help!

Vra ma of pa om die tydskrif vir jou af te laai by www.topvibe.co.za of gaan na ons Facebook blad. Facebook: <https://www.facebook.com/vibekids.britz>

Pas julle mooi op tot volgende maand. Liefde

Charms

OUR AMASSADORS

DYNE MULDER

Hallo Maats!

Welkom by ons Maart uitgawe, die maand wat ons Menseregte vier!
Het julle geweet die maand Maart is vernoem na Mars, die God van oorlog. vir die Romeine was hy 'n kragtige vegter wat tot byna alles in staat was. Maart was oorspronklik die eerste maand op die kalender.

Daar het so baie dinge gebeur die afgelope maand met my skool en my swem ek gaan dit binne kort met julle deel so kyk uit vir die volgende uitgawe.

Maats, het julle geweet dat swem baie goed is vir jou?

Hoekom sê ek so: Swem is 'n watersport waar swemmers met hulle arm- en beenbewegings deur water beweeg. Dit word gewoonlik in 'n swembad gedoen, maar kan ook in damme, riviere of die see gedoen word.

Daar is verskillende style van swem naamlik vryslag, borsslag, rugslag en vlinderslag. Vryslag en rugslag is my gunsteling. Swem word as 'n gesonde oefen metode beskou omdat al die spiere in die liggaam gelyktydig oefening kry.

Die swemmer se liggaamsmassa word deur die water gedra en die aksie plaas nie oormatige druk op die swemmer se knieë en gewrigte nie.

Swem kan vir ontspanning of in kompeterende verband beoefen word, waar ek beide doen. Die sport is sedert 1896 deel van die Olimpiese Spele een van my grootste drome is om eendag Olimpiese Spele deel te kan neem.

Tot volgende keer...

Dyne 😊

Dear friends.

Love, what is Love? "Well love is something that can bring everything and everybody together"

I'm Taygan Botha and this is the story about love.

In the bible 1 Jhon 4:7 says "Beloved let us love one another, for love is from God, and whoever loves had been born of God and knows God. Anyone who does not love doesnot know God because God is Love"

Love

Taygan

TAYGAN BOTHA

OUR AMBASSADORS

Goeie dag Maats,

Welkom by ons Maart uitgawe waar ek weer interessante dinge met julle gaan deel. Wat hou Maart vir ons in 2023?

Op 17 Maart is Sint Patricksdag een van die openbare vakansiedae in die Republiek van Ireland, 21 Maart is Menseregte dag in Suid-Afrika en 25 Maart is Moedersdag in die Verenigde Koninkryk.

In Maart beweeg die Son deur die sterrebeelde Waterdraer en Visse. Die teken van die zodiak in die maand Maart is Pisces en Aries.

Baie geluk as jou verjaarsdag in Maart is mag dit 'n geseënde jaar wees en hoop jou familie bederf julle sommer tonne. Het julle geweet alle mense deel hul verjaarsdag met ten minste 9 miljoen ander mense in die wêreld. Spinnepoppe is die sterkste materiaal wat deur die natuur geskep word, dit is kragtiger as staal. Die menslike liggaam kan dors en honger weerstaan, maar dit verdra nie gebrek aan slap nie. Maats, ek sal graag by julle wil hoor wat is julle passie in die lewe, wat maak jou gelukkig en wat maak jou hartseer... Stuur vir ons 'n e-pos en deel bietjie jou passie met ons of as jy enige vrae het wat dalk antwoorde kort of as julle iets interessante wil weet waaroor ons met julle moet deel. Ons hoor graag van julle. Stuur e-pos na admin@topvibe.co.za

Hoop julle het die feite geniet en sien uit na ons volgendste uitgawe waar ek nog dinge met julle sal deel. Kyk mooi na julle self, geniet jou skool loopbaan want dit is in 'n oogwink verby.

Tot volgende keer

Carin

Liewe maats

Vandag gaan ons ietsie lees uit die Bybel net om ons weer bietjie te laat onthou hoe wonderlik ons God is.

Ek gaan vir julle bietjie vertel wat in Genesis 1 staan.

In die begin was daar niks behalwe leë spasie en donkerte nie. God, wat nog altyd bestaan het, het begin skep deur woorde te gebruik. God het in 6 dae die aarde gemaak, met alles daarop, asook die mens. Hy het gerus op die 7de dag.

Kom ons maak ons ogies baie styf toe....

Ek wonder wat julle sien as julle ogies so styf toegeknyp is. Gee kans vir antwoorde. Heel aan die begin van die skepping het alles so gelyk. Daar was niks - net donkerte. En toe maak God die mooiste dinge!

Mamma en pappa:

Gesels oor die volgende vraag:

Ek wonder wat is die mooiste ding wat God vir jou gemaak het?

Gebed: Here, baie dankie vir alles wat U vir ons gemaak het. Amen

Kom ons doen nou 'n lekker aktiwiteit

Sonja

Our 1st Charity project for 2023

This was our first Charity event, Ons Gryse Jeug old age home in Sasolburg. We were blessed with great sponsors. Not only did we visit Ons Gryse Jeug but be visited Van Reebeek oldage home and we spoiled them with cupcakes, biscuits, wool and books to read. Here is some photos:

Big shout-out to our sponsors, with out you guys this could not be posible.

Thank you to Werner Volschenk and his team of Central South Africa Pageant joined us.

Chef Tommy

MY GUNSTELING BROODJIE:

Maats ek is nou maar eenmaal lief vir 'n broodjie, my gunsteling broodjie 'n 'n geroosterde kaas broodjie. Dit is lekker maklik en vinnig.

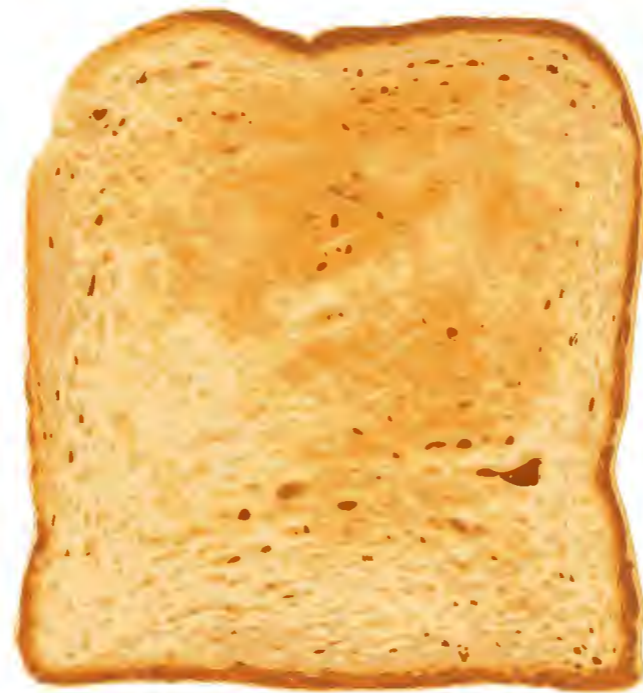

Jy benodig:

Kaas

4 snye brood wat gebotter is.

Sit die kaas op jou broodjie en sit die botter kant in jou rooster tot goud bruin.

Laat dit bietjie afkoel en smaaklike ete.

WhatsApp vir ons fotos van jou broodjies na 072 768 8582

Kom bak en brou saam met my!

Facts about Cats

The cat is a domestic species of small carnivorous mammal.

It is the only domesticated species in the family Felidae and is commonly referred to as the domestic cat or

house cat to distinguish it from the wild members of the family.

What are 5 interesting facts about cat?

Fun Cat Facts

While us humans have 206 bones, cats on average have 244. ...

Adult cats have 30 teeth, while kittens have 26.

A house cat is genetically 95.6% tiger.

Cats can run around 48 kph (30 mph), but only over short distances. ...

Cats can jump 5 times their height.

What are 3 interesting facts about cats?

Cats are believed to be the only mammals who don't taste sweetness. Cats are nearsighted, but their

peripheral vision and night vision are much better than that of humans. Cats are supposed to have 18 toes

(five toes on each front paw; four toes on each back

paw). Cats can jump up to six times their length.

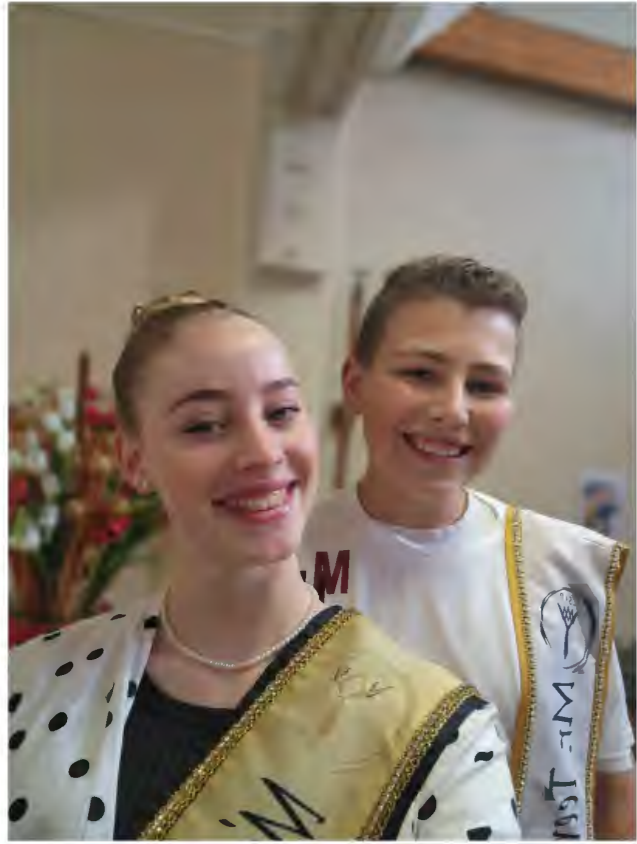

What makes a cat happy?

Playing regularly with a cat and providing their entertaining toys can easily satisfy their stalking instinct, keep them stimulated and provide the exercise they need to stay healthy and happy.

It also keeps local wildlife safe!

Our 1st Charity project for 2023

4 Reasons Why Mobile Phones Belong In Schools

“Put that phone away!” yell a thousand teachers every second of every day.

Mobile phones are often thought to have no place in the classroom. They’re nothing but a big ole distraction, right?

While mobile phones may be more of a bane than a boon in US schools, they are advancing education in many underdeveloped countries.

I personally don’t think it’s useful for students to have total access to their phones in the classroom: I think it leads to too much impulsive, frivolous behavior.

But I do accept that phones have an important role to play both inside and outside the classroom, especially in resource-deficient areas. So in part to convince myself of their value I did some research and found four ways that phones are improving education. Let’s take a look: In developing areas, computers may be unavailable or shoddy. Books may be rare. Tablets are uncommon. And forget about smartboards.

So how do you research and learn from alternative sources?

Mobile phones! They’re cheap and easy to maintain and more than three-quarters of the world’s population have one.

Sometimes I wish phones weren’t so easy to use, because I mindlessly find myself checking Facebook countless times per day (ooh a notification, yay!). But they are. I just have to learn some self-control.

For students in resource-deprived areas (or anywhere), phones provide a link to infinite information.

Libraries, computer labs, community centers are all (to some extent) packed into a phone.

Students curious about anything--the miraculous properties of water, the advances of neuroscience--can instantly find insights or new routes for thinking. Students doing a project can bolster their understandings. And classroom discussions can be enhanced by introducing content gleaned from a phone. Students with phones can connect with their classmates or other students around the world, allowing learning to extend beyond the classroom.

Online hubs can also be created for students to discuss topics while a teacher weighs in and moderates.

4) Powerful apps

There are thousands of educational and thought-provoking apps out there.

This is just a brief overview of why phones deserve a larger place in education discussions around the world. I, personally, find myself more convinced.

Phones do not have to be the scourge of teachers. Instead, teachers can facilitate better use of smartphones by advising students how to avoid bad habits and showing them how best to use their phone as a tool for learning.

Mobile phone use should not be overly restricted in learning environments, nor should they be overly relied upon. As schools gain more funding and resources, each can determine the degree to which smartphones are used.
