**DYNE MULDER**

Hallo Maats

Kan julle glo ons is al amper klaar met kwartaal 3 dit voel of ek nie grond vat nie, kyk die Hoërskool is nie jou maat nie, dit is werk op werk en nogmals werk op werk...LOL! Ek skryf net die 1 toets klaar dan is die volgende toets en taak bo op jou maar ek kla nie ek werk aan my toekoms wel ek probeer. Die swem seisoen is ook volstroom aan die gang, die jaar begin ek met SA skole swem dit sal 'n eerste vir my wees want my Laerskool het die SA skole swem gehad nie. Kyk ek geniet alles wat ek doen maar ek moet bieg dit is harde werk die tyd wat ek gedink het alles is net speeltjies is verby ek sal moet hard konsentreer en leer want alles word net moeiliker maar ek is danbaar vir ouers wat my help en ondersteun in alles wat ek aanpak in die lewe. Hulle baklei dalk partydae bietjie baie maar ek glo hulle bedoel goed en wil net die beste vir my hê.

September maand is 'n baie lekker maand want dit is die begin van Lente, die blomme blom en die bome word weer mooi groen en is nie meer so vaal nie. My Pa verjaar ook in September en ek wil net vir hom sê Pappa baie geluk met jou verjaarsdag dankie vir die goeie Pa wat Pappa is vir my ek weet ek kan soms moeilik wees en ek weet jy baklei en raas omdat jy omgee. Ek hoop Pappa het 'n baie lekker dag. Love you Yster

Maats, tot volgende keer, kyk mooi na julle self, wees veilig en sterkte met die toetsreeks by die skole.

Dear readers,

September, the month that bridges the gap between summer and autumn.

As the days grow shorter and the air turns crisp, September brings a sense of change and new beginnings.

It marks the arrival of full colors, and the anticipation of cozy evenings outside with friends and family.

Welcome, September!

We celebrated Women's day on the 9<sup>th</sup> of August 2023, see some Pictures of our ambassadors on page 10 and 11.

Till next month, have fun.

Love Taygan

# OUR AMBASSADOR.

Plante verteenwoordig die dinge wat ons huis 'n groot hoeveelheid voorsien **pragtige kleure en reuke**, maar hulle gee ons ook die gevoel om goed te voel en gelukkig te wees, maar die belangrikste is dat hulle lewensbelangrike suurstof voorsien.

En nie net dit nie, **vir ons kinders is dit iets baie positiefs**, aangesien ons hulle op hierdie manier kan nooi om nader aan die natuur te kom gedurende elke seisoen van die jaar, afgesien van die feit dat ons die moontlikheid het om plante en spesies wat medisinaal en eetbaar is, te kan kweek, op hierdie manier kan ons die beste uit elk van die **voordele wat dit vir ons gesondheid kan bied**.

Met blomme en veral plante, kan ons nader kom aan die towerkuns wat die lewe het, die kinders wat in die stad woon; hulle kan skaars agterkom wat die seisoene verander, maar as ons hulle die geleentheid bied om **groei en versorg plante** vanuit die gemak van jou huis, sal ons jou verwonderd laat voel en terselfdertyd kan geniet hoe fassinerend die natuur kan wees.

Kinders is gewoonlik baie bly as hulle die geleentheid het om dit waar te neem **uit 'n klein saadjie kan 'n pragtige blom uitkom** En as ons die kinders die wêreld van plante en blomme tuis kan laat ingaan, sal dit 'n baie goeie ding wees, aangesien hulle hiermee kan leer om geduldig te wees.

Oor die algemeen neem gesinne gewoonlik nie die besluit om saam na 'n winkelsentrum te gaan as gesinne nie weet wat om op 'n naweek in die middag te doen nie. Vir baie mense lyk dit baie lekker om plekke te besoek waar hulle heeltemal deur mense omring is, maar die waarheid is dat die beste manier om by kinders te wees, is om 'n natuurpark te besoek, **plekke waar hulle die skoonheid van plante, blomme, bome kan geniet** en alles wat die natuur ons kan bied.

**Hier is nou 'n lekker aktiwiteit wat jy kan doen.**

3. Mosquitoes Do Prefer to Bite Some People Over Others. ...
4. A Full Moon Makes Mosquitoes More Active. ...
5. Mosquitoes Need Only One Tablespoon of Water to Breed.

## What are mosquitoes facts for kids?

mosquito - Kids | Britannica Kids | Homework Help

A mosquito has a soft body with a hard covering called an exoskeleton.

It has two narrow wings, two antennae, and six long legs. A female mosquito usually has a mouthpart called a proboscis, which looks like a long tube.

She uses her proboscis to pierce skin and suck blood from animals.

Adult mosquitoes live for about 2 to 4 weeks depending on the species, humidity, temperature, and other factors. Female mosquitoes often live longer than male mosquitoes. Only female mosquitoes bite people and animals to get a blood meal. Female mosquitoes need a blood meal to produce eggs.

## How long do mosquitoes live and why?

Mosquitoes are relatively fragile insects with an adult life span that lasts about 2 weeks on average, depending on species. The vast majority meets a violent end by serving as food for predators, or are killed by the effects of wind, rain or drought.

## Mosquitoes are Pollinators

Just like bees or butterflies, mosquitoes transfer pollen from flower to flower as they feed on nectar, fertilizing plants and allowing them to form seeds and reproduce. It's only when a female mosquito lays eggs does she seek a blood meal for the protein.

## Why do mosquitoes only fly at night?

Most mosquito species avoid direct daylight, so typically, they do not come out during the day. Why do mosquitoes come out at dusk and night? From sundown to sunrise, mosquitoes can venture out to feed and breed without exposure to sunlight, which can dehydrate or kill them.

## What does mosquito eat?

Adult mosquitoes, male and females alike, feed on nectar from flowering plants. Female mosquitoes feed not just on human blood, but also blood from birds, small mammals, snakes, and more.

## What is a mosquito's favorite food?

Mosquito Food Sources | What do Mosquitoes Eat? | Orkin

Surprisingly, for both male and female adults, nectar is a mosquito's main food source — which makes them plant pollinators.

# Fun facts about the month September

## September Facts:

01 September was originally the seventh month of the year.

02 September is the only month not named after a Roman deity.

03 September is the only month with the same number of letters in its name as the number of the month (9).

04 September 22 is the autumnal equinox.

What is special about the month September?

September is known for Labor Day, the start of the harvest months and the fall equinox, and traditionally, the beginning of a new school year.

What is a September baby called? They're a Virgo or a Libra

Those born in the month of September are either Virgos or Libras. Even though they share the same birth month, the signs are actually quite different. Those born between September 1st and 22nd fall under Virgo. Virgos are known for being super organized, efficient, and practical.

What gender is born more in September?

Nature is designed to favour the conception of boys from September to November and girls from March to May because of an evolutionary mechanism aimed at keeping the overall sex ratio as near to 50:50 as possible, the scientists said.

Why is it called September?

SEPTEMBER. September comes from the Latin word septem, meaning "seven," because it was the seventh month of the early Roman calendar.

What does September stand for?

Why September Comes From The Word "Seven" | Dictionary.com  
See, September, based on the Latin septem- meaning "seven," is the ninth month of the year.

Is 1st September spring day in South Africa?

South Africa Celebrates spring Day on the 1 September. Spring day traditions in South Africa range from having a traditional braai to shaving your head and beard. In many townships, children celebrate Spring Day by spraying each other with water. However, in some urban settlements everyone participates.
