FEITE VAN CHARLENE WAT NIE ALMAL VAN WEET NIE

Charlene is gebore in Brits maar woon tans in Pretoria. Op n tipiese lekker rusdag sal jy vir Charlene kry waar sy n vleisie braai met 'n heerlike glas coke in die hand op n warm dag. Wanneer dit bietjie kuier tyd is verkies sy n Sambuca. Die dame hou van die natuur en beide die bos en die see loop hand aan hand met n sagte plekkie in haar hart. Haar droom is om te gaan cage diving, maar sy het nog nie die tyd gekry om die droom te berwaarheid nie.

Haar inspirasie is om n boodskap te deel met die gene wat voel hulle kan nie iets se nie, Sy wil die stem wees vir die wat nie n stem het nie.

Die rede vir haar sangloopbaan het ontstaan deur Tanith, daar was net hierdie melodie wat haar getref het en sy het van toe af geweet sy wil ook sulke great musiek maak.

Charlene skryf haar eie lirieke vir

haar musiek en in elke liedjie kan jy die gevoel van die opregtheid waarmee sy sing beleef.

Scallywag

Aka Charlene van Rooyen

Die 40 jarige donkerkop met die skamerige glimlag het begin sing op die ouderdom van 3. Tamboryn in die hand by ouetehuse.

Vandaar het haar sangloop baan uitgebrei en het die mensdom eers groot bewus geraak van die ekstrovert se talente met lockdown en die bekende sosiale media sensasie TIKTOK.

hoekom scallywag en nie charlene nie?

“Ek was in my jonger dae (19 amper 20) by 'n show en n ouerige dame het my gesien en gese 'Jy is 'n regte Scallywag'. Wat beteken

STOUT MAAR GELIEFD

op straat herken mense haar maklik en vra vir fotos en handtekeninge, Charlene se sy voel geeerd om op straat herken te word, sy word gevra vir n selfie of twee en 'n vinnige instap by die Spar raak dan nie meer vinnig nie maar sy Verstaan wanneer jy in die vermaak bedryf is dat n privaat lewe nie altyd moontlik is nie. Solank sy die gelukkige gesiggies om haar kan gelukkig hou is sy ook gelukkig.

Media House Vroue dag

Teenage Pregnancies!!!

A Mother's Reflection: Navigating Teenage Pregnancy Through Empathy and Action

Introduction:

Teenage pregnancy is a complex issue that affects individuals, families, and communities worldwide. As a mother, experiencing this firsthand through my 18-year-old son's involvement with a friend's pregnancy scare provided me with valuable insights into the challenges faced by young people today. In this article, I will reflect on my son's compassionate response to his friend's situation and discuss the broader implications of teenage pregnancy, highlighting the importance of empathy and action in addressing this pressing issue.

The Initial Revelation:

It all began with a somber conversation initiated by my son, who approached me one day with a heavy heart. His words, "Mom, my friend is in trouble," resonated deeply within me, signaling the gravity of the situation. As he proceeded to confide in me about his friend's suspicion of his girlfriend's pregnancy, I couldn't help but

admire the maturity and sincerity with which he conveyed his concerns.

My Son's Response:

For those acquainted with my son, his unwavering resolve and honesty are defining traits. In the face of his friend's predicament, he exhibited a remarkable level of empathy and determination to offer support. From accompanying his friend to purchase a pregnancy test to engaging in heartfelt conversations with both parties involved, my son demonstrated a profound sense of responsibility and compassion.

Empathy in Action:

What struck me most was not only my son's willingness to stand by his friend but also his genuine concern for the well-being of the girl in question. He approached the situation with empathy and understanding, recognizing the potential ramifications of their actions. Moreover, he took proactive steps to educate them about the consequences of teenage pregnancy, underscoring the importance of informed decision-making.

Confronting the Reality:

As my son recounted his conversations with his friend, I couldn't ignore the stark reality he presented regarding teenage attitudes towards sex. His revelations about the prevalent casualness and frequency of sexual encounters among adolescents shed light on the urgent need for comprehensive sex education and awareness initiatives.

Broader Implications:

Delving deeper into the issue, my son shared alarming statistics about teenage pregnancy in South Africa, where one in three girls aged between 10 and 19 years falls pregnant and does not return to school. These statistics serve as a sobering reminder of the multifaceted challenges faced by young individuals, often compounded by societal norms and inadequate support systems.

Lessons Learned:

As a parent, this experience served as a poignant reminder of the importance of fostering open and honest dialogue with our children about sensitive topics such as sex and relationships. It reinforced the need to equip them with the knowledge and resources necessary to make informed decisions and navigate life's challenges responsibly.

Conclusion:

In conclusion, my son's response to his friend's teenage pregnancy scare exemplifies the power of empathy and action in addressing complex societal issues. By engaging in meaningful conversations, offering support, and advocating for comprehensive sex education, we can empower young people to make informed choices and contribute to positive change in their communities. Let us heed this call to action and work together to create a world where teenage pregnancy is not just a statistic but a rarity, and where every young individual has the opportunity to thrive and fulfill their potential.
